A: I have been using yodot file recovery, it is one of the best file recovery software available for windows. You can check their website. Link : Q: How can I add divs to these buttons? The labels are actually buttons (html) and I would like for them to have the same style. How can I do this? A: You can do this using the appropriate HTML5 tags. Use this CSS: ul { padding-left: 0px; } ul li { float:left; padding: 5px; } input, button { display:inline-block; } Check the fiddle here: The Loquastec (LQ) platform is a hybrid blockchain and smart contract platform that simplifies cryptocurrency markets through a consensus network. The platform is beneficial in three ways. Firstly, the Loquastec blockchain enables a decentralized solution that delivers better trust in transactions. Secondly, the Loquastec platform has been designed for easy trading of virtual currency through Loquastec tokens (LQTs). Lastly, the Loquastec platform is fungible and one of the most easy-to-use software platforms for the exchange of bitcoin and Ethereum. The LQ platform was developed by the company "Cilantro" and was based on a combination of three technologies. These technologies are Loquastec blockchain, Loquastec (LQ) platform and Loquastec Smart Contracts. The Loquastec blockchain enables lower fees and energy consumption. It is also designed to support an increase in the total number of transactions and transactions per second. The Loquastec LQ platform also incorporates a token exchange which is used to operate the Loquastec platform. LQTs are digital assets that are traded on the Lo
